

PLANTING CERTIFICATE

**This certificate is to confirm that
CAMELFORD TOWN COUNCIL**

has planted 1 tree through Sustainably Run, an environmental initiative, in partnership with the Cloudy Group and The Green Earth Appeal.

As a member of Sustainably Run, the Cloudy Group helps change the lives of communities across the developing world.

Reverse Climate Change

Every tree planted will remove on average 25KG of CO2 from the atmosphere every year of its life

Stop Desertification

Plant a tree on deforested land and the root systems draw water to the surface and regenerate the soil

Provide Food For Underprivileged Children

By planting fruit trees in Africa, Asia or South America you help provide sustainable sources of food for the communities who plant them

Education In The Developing World

Educate farmers and their communities about agroforestry, which is how to use their farmland efficiently to ensure sustainable maximum yields year after year

The Green Earth Appeal wishes to thank Camelford Town Council for their commitment to offsetting their carbon impact and helping those less fortunate in the developing world.
